

Aniket Dubhashe

Pune, Maharashtra | 7796040278 | aniketdubhashe@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

Professional Summary

Data Analyst skilled in Python, SQL, and Power BI, with hands-on experience in data cleaning, EDA, and machine learning (Regression, Classification, Clustering, Random Forest). Built dashboards that cut reporting time by 30% and delivered end-to-end ML projects including disease prediction and NLP-based candidate matching. Best Research Paper Award, ImCReTE 2026.

Technical Skills

- **Programming:** Python, SQL, Core Java
- **Machine Learning:** Regression, Classification, Clustering, Model Evaluation, Scikit-Learn
- **Data Analysis:** Pandas, NumPy, EDA, Statistical Analysis, Data Wrangling
- **Visualization & BI:** Power BI, Excel, Matplotlib, Seaborn
- **Databases:** MySQL, SQL Queries, Database Design
- **Development Tools:** Git, GitHub, Jupyter Notebook, Google Colab, VS Code

Experience

Data Analyst Intern - Cravita Technologies Pvt.Ltd, Pune Jan 2026 - Jun 2026

- Cleaned and analyzed 5,000+ records using SQL and Excel to resolve data quality issues ahead of reporting cycles.
- Built 3 interactive dashboards in Power BI, reducing manual reporting time by 30%.

Projects

AI-Powered Disease Prediction | Python, Flask, Machine Learning, SQL

- Trained a Random Forest model on healthcare datasets to predict disease outcomes, covering the full pipeline from preprocessing through model evaluation.
- Built and deployed a Flask API connecting the trained model to a web interface, enabling real-time prediction requests.

AI-Recruitment System | Python, NLP, Machine Learning, Streamlit

- Built an AI-based candidate ranking system using semantic resume matching with Sentence Transformers.
- Designed a scoring engine that ranked candidates by skills match, experience level, and profile signals.

Netflix Data Analysis | Python, Pandas, Matplotlib, Seaborn

- Analyzed 9,800+ Netflix titles using Python and Pandas to surface genre, popularity, and release-year trends.
- Built visualizations in Matplotlib and Seaborn to communicate trend findings for business decision-making.

Education

Master of Computer Application - SPPU University, Pune 2024 - 2026
CGPA: 7.90/10

Bachelor of Computer Science - BAMU University, Sambhajinagar 2021 - 2024
Percentage: 73.33%

Certifications

- Data Analytics & Data Science Professional Training - Fortune Cloud Technology, Pune
- SQL for Data Science - Great Learning

Achievements

- Received Best Paper Award at ImCReTE 2026 for the research paper "Smart Serve: A Time Based Food Redistribution Framework for Waste Reduction."
- Participated in the All India Data & AI Challenge Hackathon 2026, where I developed an AI Recruitment System using NLP, semantic matching, and explainable AI.
