ABOUT

Dedicated IT student specializing in Data Analytics with strong skills in SQL, MS Excel, Power BI, and Python. Experienced in data cleaning, visualization, and dashboard development to extract actionable insights. Eager to apply knowledge in real-world settings and continuously expand technical skills to contribute effectively in dynamic and innovative environments.

EDUCATION

Master of Computer Applications (MCA) Trinity Academy of Engineering, Pune	2024-Pursuing
--	----------------------

Bachelor of Computer Science (BCS) Percentage:-73.33%	2021-2024
---	------------------

Higher Secondary Certificate (HSC) Percentage:-82.67%	2020-2021
---	------------------

SKILLS

Programming Languages :	Core Java, Python(Pandas, NumPy, Matplotlib)
Power BI :	Power Query, DAX, Data Modelling, ETL, Dashboard Creation
Excel :	Data Cleaning, Pivot Tables, Lookup, Statistics
Database :	SQL, MYSQL(Joins, Subquery, Aggregate Functions, Window Functions)
Soft Skills :	Problem-solving, Analytical thinking, Leadership

INTERNSHIP

Data Analyst Trainee - Cravita Technologies : Jan 2026 - Present
Automated Power BI reporting via DAX/Star Schema, reducing manual effort by 30% with 100% accuracy. Translated business needs into KPI dashboards, enabling 2x faster data-backed strategic decisions.

PROJECTS

Bank Customer Churn Analysis: Link	Power BI, DAX, Power Query
Built an end-to-end Power BI dashboard on 10,000+ records revealing 64% inactive customers, directly informing re-engagement strategies. Designed DAX measures and Star Schema model to track KPIs against a 15% churn benchmark for \$100k+ balance segments.	

Coffee Shop Sales: Link	Excel, Pivot Tables, KPI Design
This Excel-based Coffee Shop Sales Analysis dashboard presents key KPIs such as total revenue, footfall, and average sales. It visualizes sales trends by product, time, and store location, with interactive slicers for quick and data-driven insights.	

Power BI Sales Dashboard Project: Link	Advanced Excel, Power Query
Analyzed a \$2.3M retail dataset to expose profit leakage in Texas/Pennsylvania by correlating discount rates with net margin. Automated Power Query transformation on 10k+ rows, identifying Technology as highest-margin category at 17.4%
